

AIT signs historic MoU with Steinbeis Centre for Technology, India headquartered in Germany

A Memorandum of Understanding (MoU) was signed between Steinbeis Centre for Technology Transfer, India (SCTI) (website <http://www.steinbeis.de/en/transfer/steinbeis-enterprises.html>) and Acharya Institute of Technology (AIT) (website <http://www.acharya.ac.in/>) on July 21, 2014.

This has made AIT as a Network Partner of SCTI.

The key objectives of the MoU are :

- SCTI shall promote AIT as one of its Network Partners for technology development, design and engineering, training etc. and other related activities within the expertise area of AIT.
- SCTI will also provide support to AIT through its expert, Indian/Global network, by mutual agreement, after assessing the specific requirements of each project proposed by AIT to provide a comprehensive solution that meets the client's requirements.
- AIT, through its available skills and competencies, shall develop the technological solutions for Steinbeis Networked Clients and cascade the expertise and experience to its students' community .
