

## **TRAINING & PLACEMENT CELL**

### **INTRODUCTION:**

Placement is an important component of formal education at the graduate and postgraduate level. Since Bangalore is increasingly becoming the hub of multi-national companies and startup ventures, there is a surge of opportunities for the undergraduates and postgraduates of all the disciplines. The Training & Placement Cell is thus established to be a nodal point of contact for the organization and industries looking out for potential employees. The Cell also empowers the students with suitable training and by imparting the basic vocational/professional skills. This placement cell is designed to be student friendly.

### **MISSION:**

The cell intends to create a sense of confidence about employment prospectus and aid the students in enabling them to be employed. It intends to be the linking bridge between the industries and potential employees. Further, the efforts are made to expose the students to the industrial requirements and the desired level of knowledge and skills.

### **OBJECTIVES:**

- To create a congenial atmosphere for the students to utilize placement services.
- To inculcate the importance of placement and the level of preparation required.
- To liaison with potential companies, industries, to tap the placement resources.
- To invite the potential employers to the campus and giving a brief about the potential students
- Arrange an interface between student s and respective employers.
- To conduct training on vocational skills and education
- Invite alumni in influential positions to address and motivate the students.

### **FUNCTIONS:**

- The cell shall garner data about vacancies and organize placement camps with the potential employers.

- Students shall be intimated, screened and trained in such skills that are required for placement.
- Mock interviews are conducted to acquaint the students with interview mode and guide them by rectifying the errors, if any.
- Remedial action shall be taken to rectify the weaker areas so as to make the students confident while facing the interview.
- Arrange certificate courses/add-on course/short-term crash courses to equip them with the industrial/employment skills sought for.
- Coordinate with the centralized placement cell of the Institutes
