

KNOW YOUR BLOOD – ID

24th APRIL 2025 | 09.30 am to 03.30 pm
AHS Main Block, Acharya Campus

About the Program

Free Blood Grouping: This initiative offers free blood group testing to help individuals easily identify their blood type. Knowing your blood group is vital for medical emergencies, blood donations, and overall health awareness. The test is quick, safe, and conducted by trained healthcare professionals.

Health awareness and importance of blood donation: This program is designed to promote health awareness and highlight the life-saving importance of blood donation. Through interactive sessions, expert talks, and educational materials, participants will gain valuable insights into maintaining good health and the critical role blood donation plays in saving lives.

Objectives of the Program

- To help students find out their ABO and Rh (positive/negative) blood group.
- To make students aware of the importance of knowing their blood type for emergencies.
- To promote the idea of voluntary blood donation and its life-saving impact.

Expected outcomes of the programme

- To know and record students blood group.
- Increased awareness among students about the importance of blood grouping in healthcare and emergencies.
- Encouragement of a positive attitude toward voluntary blood donation.
- Enhanced participation in health-related initiatives and community service activities.
